Tiger Nigamatzyanov
Sigel Construction
8826 Niles Center Rd.
Skokie, IL 60076

Dear Tiger,

I want to express to you and your team how excited and pleased I am with the construction of Scharrington Dental on Schaumburg road. Beginning with the great work of Peter Moser from Swiss Design group to the planning and implementation headed by you we more than achieved our objective.

What is really unbelievable about this project was that fact that we completed it within the project deadline. We even finished the project one week earlier than we expected. You and your team in preparing for each of schedule was way above and beyond the call of duty. Also, the project management and announcement through the baseline camp was the easiest way to keep track of the project status.

Our goal in our new practice to provide the state-of-the art dentistry to all ages with the up-to date technology. Tiger and the Sigel Construction team delivered beyond expectations and we are very proud to be on the receiving end of your exceptional services.

Please extend our sincere gratitude to the entire Sigel Construction Team and Family for helping us realize our dream.

Sincerely,

Joon H. Han, MS, DDS
Prosthodontist
Scharrington Dental PC
