Tiger Nigamatzyanov  
Project Manager  
Siegel Construction  
8826 Niles Center Rd.  
Skokie, IL 60076

Dear Tiger,

I felt it was important to write your company this letter to let you know how great it was working with you at Scharrington Square in Schaumburg. Our focus as a property management company is to totally accommodate the customers and tenants while protecting the building and the property. After looking at your aggressive deadline for a complete buildout of Scharrington Dental I was sure that the building, tenants, and customers would all be inconvenienced. This did not happen. The construction took place and was completed early without any impact to the thousands of customers that visit Scharrington Square everyday. All the workers on the job were easy to work with and willing to help with the many questions that I presented them with on my regular visits.

I especially appreciated the steady flow of communication, with emails, text messages, updates to the website, or the good old fashioned "pick up the phone". The website was a great way to let everyone involved know what is going on now and what was going to happen next. I look forward to passing your company's name on to other potential tenants at Scharrington Square so they can understand the benefit of having a store in a first class shopping center and using a first class construction company.

Myself and my team at CAS Commercial Real Estate Services look forward to working with you and your company again.

Keep up the great work,

Vincent Gatto
